80x25mm Ever Lubricate Bearing PC Computer Case Fan w/ LP4 Connector

StarTech ID: FANBOXSL

This 80mm PC case fan is an economically-priced add-in cooling fan designed to provide efficient cooling for your PC.

Able to exhaust warm air out, or circulate cool air into the case, the PC case fan can help eliminate overheated components and maintain peak performance within your system.

Featuring an Ever-Lubricate bearing design for longer life beyond similar featured sleeve bearing models, this quiet running fan offers up to 24.81 CFM (cubic feet per minute) of air. Power is supplied to the fan using a power tap connected to the large LP4 power connector on your PC power supply.

Applications

- Add additional cooling to a computer case in the form of an 80mm fan
- Add an additional fan to a computer system that doesn't have available TX3 fan headers on the motherboard

Features

- Designed for quiet operation/low noise
- Ever Lubricate bearing design
